DEEPTHI KUMAR

Bengaluru, India | +91 7760479859 | deepthikumar267@gmail.com | linkedin.com/in/deepthi261 | github.com/Deepsbyte

Professional Summary

Pre-final year Computer Science Engineering student with hands-on experience building full-stack web applications using React.js, Django, and Django REST Framework. Skilled in REST API design, JWT authentication, role-based access control, and relational database architecture. Seeking software engineering internship and placement opportunities.

Education

K S School of Engineering and Management, Bengaluru — Expected: 2027
B.E., Computer Science and Engineering | CGPA: 8.95

RV PU College, Bengaluru — 2023
Pre-University Education (Science – PCMB) | Percentage: 89.66% (538/600)

St. Paul's English School, Bengaluru — 2021
ICSE | Percentage: 91.17%

Technical Skills

Programming Languages: Java
Frontend: HTML, CSS
Databases: MySQL
Tools & DevOps: GitHub

Projects

TaskFlow — Full-Stack Task Management Platform

Live Demo | GitHub Repo

React.js · Tailwind CSS · Axios · Chart.js · DnD Kit · Django · Django REST Framework · JWT · PostgreSQL

- Built a multi-user Kanban task management platform with 3 RBAC permission levels (Admin, Manager, Member) using JWT-based authentication; deployed on Render.
- Designed and implemented 15+ REST API endpoints using Django REST Framework, with audit logging for all user actions and a normalized, PostgreSQL-ready schema.
- Integrated a drag-and-drop Kanban board (DnD Kit) and Chart.js analytics dashboards tracking task completion rates and team activity trends.
- Built the full project independently, from database schema design to frontend state management.

CareerIQ — Career Intelligence Platform

Live Demo | GitHub Repo

Python (FastAPI) · React.js · TypeScript · PostgreSQL/SQLite · JWT Auth · Axios · Render Deployment

- Built a full-stack platform that analyzes resumes and provides ATS scoring, job matching, and career insights, using a FastAPI backend and React + TypeScript frontend.
- Implemented JWT-based authentication with protected routes and role-based access for candidate, recruiter, and admin roles.
- Designed RESTful APIs for resume analysis, job matching, recruiter simulation, and dashboard analytics with persistent database storage.

Internship Experience

Oasis Infobyte — *Web Development & Designing Intern* — March 2025 – April 2025

- Developed 4 front-end web applications — Calculator, To-Do List, Login Authentication System, and Tribute Page — using HTML, CSS, and JavaScript with responsive UI design.
- Applied UI/UX principles, debugged cross-browser compatibility issues, and optimized asset rendering to improve page load performance under weekly review cycles.

Certifications & Activities

- **Publicity Team Member & IEEE Student Member**, IEEE Student Branch, K S School of Engineering and Management — promote technical events and hackathons through digital outreach; participate in workshops, seminars, and networking events.
- **Participant**, HIRE-4-THON and IndiaAI Pre-Summit Ideathon — collaborated on team solutions to real-world software and AI challenges; also completed the BMS Cloud Computing Workshop.
